

# **Your Voice Heard Sprint 1 Report**

**Team: Zoomers**

**Date: July 5th 2020**

**Revision 1**

- **Actions to stop doing:**

- For our sprint plans, we need to make sure our user stories are more clear.
  - This makes implementing them far more easier and makes sure everyone is on the same page
- We need to stop committing directly to master for sprint 2.
  - This can lead to headaches later on.

- **Actions to start doing:**

- Start using branches on github. Try to keep master as a working project and each sprint on development.

- **Actions to keep doing:**

- We should continue keeping our scrum meeting short and simple and save the topics we need to discuss for after the initial scrum.
- Keeping up with communication in discord has worked well, especially when people had questions.
- Giving people friendly reminders when they may have forgotten about a meeting has been good.

- **Work completed/not completed:**

- As a user I would like to be able to access a website where I can see a list of California senators to stay informed.
- As a user I would like to see a list of my federal representatives and senators to contact under each respective current political issue.

- **Work completion rate:**

- Completed user stories: 2
- Estimated work hours 41
- Sprint total days: ~7
- Estimated user stories/day: 0.3 stories a day.
- Hours/day: 5.8
