

Sprint 1 Meeting #3 Notes

Arindam's Initial Comments

- User story 1 is too broad, can encompass whole project
- 'Draw out the general layout of the website' is too broad for a task
- User story 2 is better
- Criteria should be dynamic so that it can change down the line if it needs to be

Meeting

- Dominic
 - Google cloud deployment is up and running
 - Should be able to give everyone access with gcp accounts
 - Will work on separate pages for representatives and senators
- Hunter
 - Worked on script to pull representatives and senators
 - Decided to use .gov website
 - Will continue working on script
- Aubtin
 - Worked on html and css frontend
 - Has completed the 'barebones' of the website
 - Also worked on creating spreadsheet of representatives and senators
 - Obstacle: representatives don't give out email addresses
 - Will continue working on these tasks
- Jiaman
 - Worked on grouping criteria
 - Created a document that:
 - Explains why we need to group them
 - Explains different criteria such as region, political issues, and departments
 - Suggested filtering options for users

Arindam's Comments about Github

- We need to make sure we comment in detail
- We should be using multiple branches
